St. Louis County Department of Public Health COVID-19 Update

Improved Website

The website www.stlcorona.com has been improved to provide a more user-friendly experience. The wealth of information is now better organized and easier to navigate.

There is a valuable taskbar located in the upper right corner of the website. It translates all the content contained on the site into approximately 80 different languages. Ultimately, we are seeking to make this information readily available to all of our neighbors.
